## Projects

### AIA-Life Insurance-Policy Servicing Module

MY AIA

Sep, 2021 - Present

.Net Core

Angular 9

Sql Server

Web Api

Azure

Vs 2022

### Work

- Mention key **responsibilities** that match the project description. Include explanatory phrases which includes **why, how, where and how tasks** are performed. **Example:** Managed a team of 5 sales reps to deliver monthly business targets.

### Impact

- Mention measurable **impact or results** you helped deliver. **Focus on the outcome of tasks.** **Example:** Modified customer service support system to reduce complaints by 10%.

## MHME(Monster Hiring Management Enterprise)

Monster Technologies

Oct, 2018 - Aug, 2021

.Netcore2.2

Asp.Net

C#

Webapi

Angular 5/8

Sql Server

Azure Blob Storage

### Work

- Development and implementation of Monster Hiring Management, an applicant-tracking solution.
- Tailoring the solution to streamline the federal hiring process, with a focus on regulatory compliance.
- Addressing key challenges encountered by federal agencies during recruitment, assessment, selection, and hiring processes.

### Impact

- Improved efficiency in federal hiring procedures through the utilization of Monster Hiring Management.
- Ensured compliance with regulations and guidelines governing the hiring process.
- Enhanced ability to recruit, assess, and select the most suitable candidates

- Enhanced ability to recruit, assess, and select the most suitable candidates for vacant positions within federal agencies.

## **Webview -Thomson Reuters(Usa)**

CSS CORP

Jan, 2011 - Jun, 2015

.Net 4

Asp.Net

Java Script

Sql Server

Ajax

Work

- Implementation of a WebView application within a law firm context to facilitate the storage of client information in a database.
- Utilization of the WebView application development framework, which is based on standard Microsoft technology and specifically designed for creating browser-based applications.
- Integration of multi-language capabilities into the WebView framework.
- Incorporation of a customization feature within WebView, enabling both users and system administrators to tailor individual screens.
- Customization options available at different levels: user-specific, group-specific, and firm-wide.

Impact

- Improved operational efficiency and organization within the law firm's workflow.
- Streamlined process for capturing and recording client details, leading to enhanced data management practices.
- Enhanced user experience and increased user-friendliness due to the customization feature.
- Increased adaptability of the application to various user preferences.
- Tailoring the application to address specific needs at both individual and organizational levels.

## Gs3india Crm

CSS Corp

Jun, 2010 - Dec, 2010

Asp.Net With C#

Ado.Net

Sql Server 2005

### Work

- Creation of GS3India CRM with the core objective of "PINTS" (Preparing Indian Nurses To Succeed).
- Focus on the significant objective of placing Indian nurses in healthcare centers situated in the United States.
- Development of a web-based intranet application exclusively for the Marketing and CR (Customer Relationship) team of GS3.
- Incorporation of diverse modules within GS3India CRM, including SFA (Sales Force Automation) for the Marketing team and various customer relationship modules such as Student, CR, and Processing for the CR Team.
- Implementation of features that facilitate tracking and reminders related to facilities and candidates.

### Impact

- Direct contribution to the success of Indian nurses by preparing and placing them in healthcare centers abroad.
- Enhanced efficiency and organization within GS3's Marketing and Customer Relationship teams through the use of GS3India CRM.
- Streamlined sales processes and improved customer relationship management for the Marketing and CR teams.
- Improved tracking of facilities and candidates, leading to more effective management and timely communication.
- Positive impact on overall operational processes within GS3, particularly in the context of nursing placements and customer interactions.
